

# Epilog: The Test

- This part is about the test itself
- AC 60-11C has detailed rules for the materials
  - Proctor will explain the rules when you take the test
  - Pencil and paper will be supplied
- Bring identification
- Test is taken on a dedicated computer
  - Proctor will sign you in and out

# Epilog: Techniques

- Go through questions three times
- Right answer best answers the question
- Keep track of the time on hard questions
- Leave nothing blank
- May be one or two “experimental” questions
- As proctor for help if needed
- Look for notes and legends

# Epilog: Contents

- 60 questions, 2 hours for initial test
- 40 questions and 1.5 hours for recurrent
- 70% is passing (42 for initial, 28 for recurrent)
- Question breakdown:

Airspace	15-25%
Weather	11-16%
Loading	7-11%
Regulations	15-25%
Operations	35-45%
- If you have to retake, you need AKTR and must wait 14 calendar days
